WHAT WE DO

Full Interior Remodels

Kitchens, bathrooms and living spaces — reworked around how the space is actually used.

Custom Accent & Feature Walls

Slat wood, board & batten, textured plaster, stone panel, millwork, backlit LED. Our specialty.

Interior Design Concepts

Layout, materials and finish direction worked out before the build starts.

Down-to-the-Studs Rebuilds

Complete gut renovations. Stripped back to structure and rebuilt to spec.

Custom Built-Ins & Millwork

Media walls, shelving, closets and one-off pieces built to fit the room exactly.

Repairs & Smaller Projects

Doors, drywall, trim, flooring and paint-ready repairs. No job treated as too small.
